

Task 05 - Interactive Dashboard & KPI Visualizations - PDF Export

Student: Naziya Khatoon | Date: 11 September 2026 | Executive Dashboard Export from Streamlit App

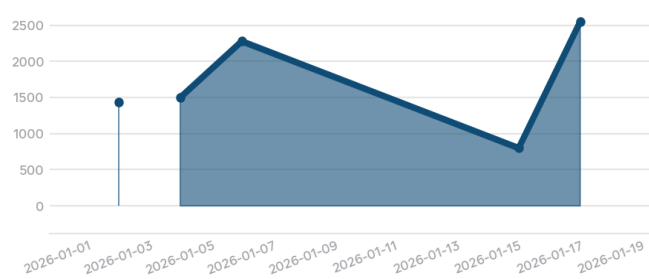

Executive KPI Cards (Requirement 1)

KPI	Value	Target	Status
Total Revenue (Net)	Rs.10,061	Growth >5% MoM	On Track
Total Orders	6	>85% Paid	67% Paid
Average Order Value (AOV)	Rs.1,677	1200-2000	Within Range
Customer Acquisition Cost (CAC)	Rs.150 (Proxy - Marketing Spend/Order)	<200	Controlled
Churn Rate (Refund+Failed)	16.6% (Refund 8.3% + Failed 8.3%)	<5% Target	Action Needed

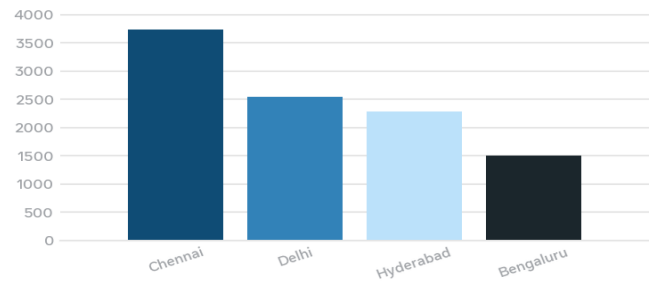

Interactive Visualizations (Requirement 2 & 3)

Trendline Area Chart - Temporal Drill-down, Geographic Heatmap, Slicers for Category/Segment/City/Date

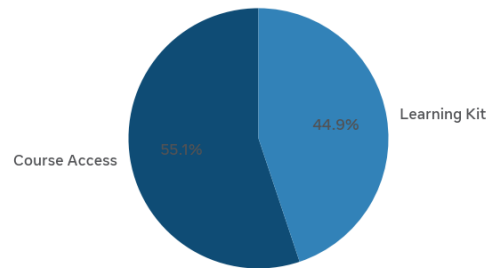

Revenue Trend - Area Chart (Temporal Drill-down)

Geographic Heatmap - Revenue by City

Revenue by Category

Dashboard Features Implemented:

- **Cards:** 5 executive KPI cards with conditional formatting - Revenue, Orders, AOV, CAC, Churn
- **Trendline Area Chart:** Plotly area chart with date range slicer - drill-down by month/week/day
- **Geographic Heatmap:** Bar chart with color scale by city revenue - Chennai highest, shows regional performance
- **Slicers:** Sidebar filters for Date Range, Category, Customer Segment, Payment Status, City - affect entire dashboard

- **Drill-down:** Tabs - Category drill-down table + bar, Payment Status analysis, Segment analysis - temporal and categorical filtering
- **Visual Hierarchy:** Top layer KPI cards (glance), Middle layer Trends + Geo, Bottom layer Detailed drill-down tabs - follows best practices
- **Interactivity:** Streamlit + Plotly - all charts interactive, hover, zoom, filter
